RE: Status of Investigation of Historical Solid Waste Management Units (SWMUs) 15, 16, 18, 19, 20, 21, 28, 29, and 32 at the AK Steel Site, Kansas City, Missouri  
RCRA ID #: MOD007118029

Dear Mr. Batliner:

The U.S. Environmental Protection Agency and Missouri Department of Natural Resources (MDNR) have determined that no further investigation or remediation for the purpose of corrective action under the Resource Conservation and Recovery Act (RCRA) is necessary at SWMUs 15, 16, 18, 19, 20, 21, 28, 29, and 32 of the A.K. Steel facility located in Kansas City, Missouri. This determination was made previously by the EPA in 1994 when the RCRA Part II Permit was issued for the site, and was addressed in the Response to Comments section of the permit. The Response to Comments section of the permit indicates that the determination to remove these SWMUs was based on the RCRA Facility Assessment Report and other documents provided to the EPA.

I can be reached by phone at (913) 551-7755 or by email at [morrison.bruce@epa.gov](mailto:morrison.bruce@epa.gov) if you have any questions concerning this matter.

Sincerely,

Bruce Morrison  
Project Manager  
Waste Remediation and Permitting Branch  
Air and Waste Management Division
